

pro clima INTELLO® PLUS

Intelligent Air Barrier

INTELLO® PLUS is a market leading intelligent air barrier for all construction types, providing superior energy and moisture control. INTELLO® PLUS maximises the performance of your thermal insulation, whilst restricting internal moisture entering the building envelope. INTELLO® PLUS is reinforced for strength and durability, utilising HydrosafeTM technology. This intelligent air barrier provides optimal protection against structural damage and mould, even in the event of unexpected moisture intrusion.

- ✓ Promotes superior drying capacity with Hydrosafe[™] technology
- ✓ Intelligent airtightness system (IAS) for warm, dry, healthy buildings
- Maximises the performance of thermal insulation
- Highly diffusion-resistant in winter
- Superior back-diffusion capacity in summer*

pro clima INTELLO® PLUS

Intelligent Air Barrier

Cover-fleece + protective-layer:		PP microfibre fleece				
Membrane:	PE copolymer					
Surface weight:	110 ± 15 g/m²					
Reinforcement:	Polypropylene non-woven fabric					
Thickness:	0.4 ± 0.1 mm					
Flammability index:		< 5	AS 1530.2-1993			
A:		≥ 0.1 MNs/m³	ISO 5636.5, BS 6538.3			
Air control:		Air barrier	AS/NZS 4200.1-2017			
Vapour classification:		Class 2 - Class 3	AS/NZS 4200.1-2017			
S _d value, equiv. air layer thickness:		0.25 -> 25 m	EN ISO 12572			
Water vapour resistance (MVTR ⁺):		1.25-125 MN.s/g				
Edge tear:	MD / CD [†]	200 / 200 N	EN 13859-1			
Tensile strength:	MD / CD [†]	7.0 / 5.8 kN/m	EN 13859-1			
emperature resistance:		-40 °C to +80 °C				
Electrical conductivity:		Electrically non-conductive	AS/NZS 4200.1-2017			

^{*}back-diffusion refers to the summer condition when water vapour can migrate from outside to inside. Vapour is forced to the relatively cool inside by high external humidity and/or moisture from damp claddings combined with high external temperatures, †MVTR: Mean vapour transmission rate, †MD / CD: Machine direction / cross direction

IMPORTANT INFORMATION

- This product should not be exposed to UV or water during the construction or operation of the building.
- Class 2 to Class 3 humidity-variable air barrier.
- Lowest VOC rating in hazardous substance test (ISO 16000).
- Protected winter building sites thanks to Hydrosafe[™] behaviour.

PRODUCT DESCRIPTION

INTELLO® PLUS is an air barrier with smart vapour control, forming part of an intelligent airtightness system (IAS) when joints are sealed with TESCON® VANA and junctions are sealed with ORCON® Classic.

The INTELLO® PLUS humidity-variable response is achieved by the polyethylene (PE) copolymer laminated on spun bonded polypropylene (PP) and reinforced with polypropylene mesh.

WEATHER EXPOSURE

This product should not be exposed to UV or water during the construction or operation of the building.

APPLICATION NOTES

INTELLO® PLUS should be laid with the plastic film (the printed side) facing the installer. Airtight seals can only be achieved when INTELLO® PLUS is installed without folds, creases or tears.

Delivery Form					
ID CODE	LENGTH	WIDTH	AREA	KG/ROLL	QTY
